Breakfast in the Classroom (BIC)

at Washington Elementary School

What is BIC? Instead of the traditional breakfast before school, students will be able to eat breakfast in their classrooms after the bell.

Why BIC? Breakfast in the classroom will allow students to play and socialize prior to school rather than having to come in to eat. It will also allow more students the opportunity to eat breakfast as well as be used as valuable learning time.

Will breakfast before school still be offered as well? No, Breakfast in the Classroom replaces traditional breakfast offered prior to the start of school. Students will be encouraged to play with friends during that time.

Will my student be charged? No! the Minnesota Free School Meals bill has taken into effect, meaning all students can receive **one free breakfast and one free lunch per school day.**

Does my student have to participate in BIC? No, a student can take or deny BIC each day. If you do not want your student to participate at any point during the school year, please turn a written request to your classroom teacher that states your student is not allowed to eat breakfast at school. Please note that other students will still be eating at that time, so if you want to send a breakfast snack with your student to eat during breakfast time, you can.

Will my student miss out on learning? Not at all! Not only is eating together part of the learning experience, teachers will use the breakfast time to teach things like conversational skills, as well as math, science, and reading concepts.

What if I have questions or concerns with BIC? All questions and concerns regarding this program can be directed to Emily Scheresky, Food Service Director, at emilyscheresky@isd593.org or 218-281-5313 x 7.
